All Staywell® pet doors are suitable to fit any door, wall or partition although additional materials and competent DIY skills may be required. * It is not possible to cut holes in toughened glass or double glazed units except at the time of manufacture. Please consult a glazier. ** If fitting a 'Magnetic' model into double glazed glass a plastic spacer bar must be used. Please consult a glazier. *** 'Magnetic' cat flaps will not work if installed directly into a surface containing metal. The unit must be isolated from these materials in a wooden frame. Full details in the user guide.
